DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-25, 43, 44-68, 86-103 and 118, drawn to selecting a related promotion based on the status of the initial promotion, classified in class 705, subclass 14.
 - II. Claims 26-42, 69-85 and 104-117, drawn to determining an effective medium based on the status of each promotion delivered, classified in class 705, subclass 14.
2. The inventions are distinct, each from the other because of the following reasons:
Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as determining an effective medium. See MPEP § 806.05(d).
3. These inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. The examiner spoke to Richard Neifeld on September 2, 2004 and an election

was not made by telephone therefore this restriction is proper under MPEP 812.01.
